SIMATIC WINCC OPEN ARCHITECTURE

ETM web-based training courses – Requirements & Restrictions

SIEMENS

- The offer of web-based training courses is limited to the time period of the Coronavirus crisis (SARS-CoV-2 / COVID-19).

- The web-based training is restricted to a maximum number of 5 participants per course.

- We ask participants for joining on time, according to the time from their meeting invitation. Participants who join extremely late might be excluded from the course.

- Trainees must fulfill the individual educational preconditions for the booked course. Participants not fulfilling these preconditions might be excluded from the course.

- Trainees must use a suitable laptop or desktop computer (one computer per trainee). Minimum specifications for the PC are detailed in the training descriptions which can be found at the following link:
  https://www.winccoa.com/support/training.html

- 2 screens must be connected to the used computer.

- Trainees must use a decent headset and webcam for the communication (NO Polycom NOR computer mic / speakers).

- A proper internet connection must be available (preferably NO VPN).

- Trainees should be in a quiet room (alone in the room, NO background noise).

- As tools, Cisco WebEx or MS Teams and Siemens Conceptboard are used.

- Required material is exchanged via Siemens SecuFex and email.
